

On the Subject of 64

Who knew putting in the same number was so hard?!

- The module displays a number in base 64. Submit the number back to the module in binary.
- Hold the green button to submit, and the other one to reset the input.
- Remove any leading zeros before submitting.
- A strike will reset the module.
- 'l' and 'I' look similar on the module. 'l' will have a little tail.
- 'O' and '0' look similar on the module. 'O' will have a slash through it.

Index	Character	Index	Character	Index	Character	Index	Character
0	A	16	Q	32	g	48	w
1	B	17	R	33	h	49	x
