

On the Subject of the Safety Safe

This safe either contains immense riches, or is empty.

- All 6 dials must be oriented correctly to solve the module.
 - Each dial has a tell, where it clicks louder. This is the starting location for each dial.
 - Follow the rules below to determine how far to rotate each dial after the starting location.
 - Turn the lever to check the solution. Any correct dials are indicated with a green light, and any incorrect dials are indicated with a red light.
-
- Starting at 0, add the number of port types on the bomb, multiplied by 7.
 - Add the number of lit indicators with a matching letter in the serial, multiplied by 5.
 - Add the number of unlit indicators with a matching letter in the serial.
 - For the first five dials, add the number obtained from the table on the next page, using both the location of the dial and the serial number as reference.
 - For the last dial, add the sum of the numbers in the last column using all characters in the serial number as a reference.
 - Note: A full rotation takes 12 turns.

	Dial					
	Top			Bottom		
	Left	Middle	Right	Left	Middle	Right
	Serial					
	First	Second	Third	Fourth	Fifth	All
A	8	3	4	8	9	0
B	10	1	3	7	3	8
C	2	1	1	5	3	6
D	11	6	11	11	7	7
E	0	5	5	8	2	1
