

On the Subject of Uncomplicating Wires

Who would think that wires this complex could totally refrain from the Venn Diagram?

White Wires

- Only white/white + star -> Cut
- LED -> Don't cut
- Star + LED -> 2+ batteries

Red Wires

- Only red or red + white -> Last SN digit is even
- Star -> Cut
- Any LED -> 2+ batteries

Blue Wires

- Only blue or blue + white -> Last SN digit is even
- Star -> Don't cut
- Any LED -> Parallel port

Red + Blue Wires

- Only blue + red -> Last SN digit is even
- Star -> Parallel port
- LED -> Last SN digit is even
- Star + LED -> Don't cut
