# On the Subject of Binary

Strange, but these codes are easy and impossible at the same time.

This module contains 3 square buttons "0", "1" and "R"(Reset), 2 rectangular "Send" with "Useless button" and screen with word. To disarm this module use table below to detect the correct binary code. Then input this code with "0" and "1" buttons. Use "R" button to clear your code.

Word	Binary Code
Finish	0100011001101001011011100110100101110011011011000
Strike	0110001101100001011011100110001101100101011011001
Solve	010100110110111101101100011101100110010
Disarm	0100010001101001011100110110000101110010011011101
NotSolve	0100111001101111011101000100111001101111011101101
